

Crystalcare

Washroom Services TM

Crystalcare Washroom services provide a full range of services that you require for your washrooms.

Clean and pleasant washroom environments

Sub-standard hygiene is bad for business, creates a poor impression - and can actually be unhealthy. What's more, your washroom is a public statement of your values and regard for the comfort and safety of your staff and customers.

The Crystalcare range of services is designed to provide everything you need to keep your washrooms looking good, staying hygienic and minimising the risk of exposure to bacteria, which are present in all washrooms.

We provide total service management for our customers, including:

- Product delivery and installation by qualified service personnel
- Flexible and considered service arrangements to suit your needs
- Full product maintenance services
- An Emergency call out service

Duty of Care

The Environmental Protection Act 1990 & The Waste and Contaminated Land (Northern Ireland) Order 1997 place a "Duty of Care" on anyone who produces, collects, treats and disposes of waste. This includes feminine hygiene, clinical, sharps, medicines, dental wastes, confidential waste or other waste to be recycled (e.g. cans, paper, bottles, toner cartridges)

- To prevent any other persons committing the offences of depositing, disposing of or recovering controlled waste without a waste management license.
- To prevent escape of waste, that is to contain it.
- Waste that is transferred only goes to authorised persons.
- When waste is transferred, correct documentation describes the waste and other relevant details.

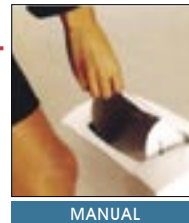

If you break the law you could be fined an unlimited amount. You should only use a Contractor who can provide proof of compliance with the legislation.

Crystal Washrooms are authorised to take your waste by being Registered Carriers of Waste under the Control of Pollution (Amendment) Act 1989 and The Controlled Waste (Registration of Carriers and Seizure of Vehicles) Regulations 1991.

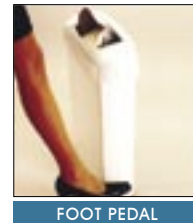

Our registered number is EAN/937390

Feminine Hygiene

The safe and hygienic disposal of feminine hygiene dressings - both in the washroom and off your premises - is a critical and sensitive issue which requires special attention. Our service provides a safe and discreet disposal system which complies with all legal requirements.

MANUAL

FOOT PEDAL

ELECTRONIC NO-TOUCH

- Stringently controlled procedures for collection, handling, transportation and disposal.
- Mandatory waste transfer documentation held by us.
- Licensed waste transfer carrier.
- All Waste is incinerated in line with the Environmental Agency best practice.

From 1996, applying to all commercial washrooms, the new Workplace Regulations stated 'in the case of WC's used by women, suitable means should be used for the disposal of sanitary dressings'.

Hand Soap

Enriched Foam Skin Care Systems

Enriched Foam Skin Care Systems use highly concentrated formulas to provide a thick, dense foaming solution for a luxurious hand washing or sanitizing experience.

A wide choice of formulations & dispensers meet the needs of a wide range of applications from general hand cleansing to hand sanitizing in washrooms, kitchens and locations where the risk of cross contamination is high.

Liquid Spray Skin Care Systems

The spray soap and hand sanitizer system delivers enough liquid to clean hands thoroughly while providing up to 60% reduction in consumption.

Enriched Foam Alcohol free Hygienic Hand Rub

Safe, nonflammable, non-toxic formula leaves no sticky

residue on skin. Kills 99.9% of harmful bacteria. Conforms to Norms EN1040, EN1276 and EN12054.

Environmentally responsible

Spray soap and sanitizer are amongst the most environmentally-friendly systems, resulting in a reduction of up to 60% less chemical contamination into the water system and less packaging waste.

Vending Services

We currently provide single vending units and dual vending units for user friendly solutions .

System 500's slim design with hands free operation make it suitable for smaller washrooms. Products are dispensed automatically once the correct coinage has been inserted. Practical machines with a touch of class. Show your commitment to staff and customer welfare.

Our services provide

- The convenience of on-site vending without the need for stock storage or work load of in house staff.
- Competitive product prices.
- Regularly stocked and maintained as a part of our routine service call.
- Dual vend option available providing towels and tampons to ladies washrooms coin operated, wall mounted vending machines.

Hand Dryers

- Quality - Automatic Hand Drying.
- Operated by automatic sensor. Energy saving.
- The Z-Series provides a hard resistant metal shell and a short drying time, operated by automatic sensor or push button.

- The T-2000 is one of our newest automatic hand dryer with an inner microcomputer and sensitive infrared technology.

Hand Towel Dispenser

Z-Fold paper tissue dispenser for hand drying. Single sheet dispenser, thanks to a special paper tray designed to minimise wastage.

Sanitizing

Auto Sanitising

For use with urinals, toilets & associated piping prevents hard water scale, uric scale, bacterial growth & malodour. Intuitive software enhances control, flexibility & simplicity. State of the art fully programmable sanitizer.

Urinal Water Management

Unique urinal flush management systems are designed to drastically reduce water consumption by eliminating unnecessary and expensive wastage. The system is incorporated into the water supply to the urinal cistern and controls flush frequency by controlling this supply.

Toilet Seat Sanitizer

- Seatsan for use with urinals, toilets & associated piping.
- Sanitizing foam kills 99.99% of bacteria found on toilet seats.
- Actively prevents MRSA, Candidiasis and urinary infections.
- Single dose provides a large volume of foam.

Air Freshening

TCell

The TCell is a small and stylish continuous odour control and fragrance system that uses revolutionary fuel cell technology.

- One dispenser covers an area up to 6,000 cubic feet (approximately 4 toilets or urinals)
- Environmentally friendly
- No propellants or added V.O.C.'s
- Recyclable refill

With silent operation and no moving parts, TCell is regarded as the 'clean air' alternative to battery-operated aerosol systems.

Microburst

The Microburst 3000 aerosol dispensing system delivers power, performance and flexibility in half the size of standard aerosol dispensers. • Microburst refills deliver three times the odour control and fragrance as ordinary refills and contain 63 percent less V.O.C.'s per spray than a standard aerosol. • Microtrans odour neutraliser destroys bad odours.
